

# SAFETY DATA SHEET

Date of issue/Date of revision

: 6 February 2024

Version

: 1.03

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** : TE 112QO SATIN BASE L 2200  
**Product code** : PWF348094-ME  
**Product type** : Liquid.  
**Other means of identification** : Not available.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Product use** : Professional applications.  
**Use of the substance/mixture** : Coating.  
**Uses advised against** : Product is not intended, labelled or packaged for consumer use.

### 1.3 Details of the supplier of the safety data sheet

PPG Cieszyn SA  
Chemików 16  
43-400 Cieszyn  
Poland  
+48338517100  
Fax: +48338517298

**e-mail address of person responsible for this SDS** : Product.Stewardship.EMEA@ppg.com

### 1.4 Emergency telephone number

#### Supplier

+48338517100 (07:00-15:00)

## SECTION 2: Hazards identification

### 2.1 Classification of the substance or mixture

**Product definition** : Mixture  
**Classification according to UK CLP/GHS**  
Not classified.

The product is not classified as hazardous according to UK CLP Regulation SI 2019/720 as amended.  
See Section 11 for more detailed information on health effects and symptoms.

### 2.2 Label elements

**Signal word** : No signal word.  
**Hazard statements** : No known significant effects or critical hazards.  
**Precautionary statements**  
**Prevention** : Not applicable.  
**Response** : Not applicable.  
**Storage** : Not applicable.  
**Disposal** : Dispose of contents and container in accordance with all local, regional, national and international regulations.  
P501

|                            |                |                                |                   |
|----------------------------|----------------|--------------------------------|-------------------|
| Code                       | : PWF348094-ME | Date of issue/Date of revision | : 6 February 2024 |
| TE 112QO SATIN BASE L 2200 |                |                                |                   |

SECTION 2: Hazards identification

|  |   |
|--|---|
| Supplemental label elements  | : Contains adipohydrazide, 3-iodo-2-propynyl butylcarbamate, 1,2-benzisothiazol-3(2H)-one and reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1). May produce an allergic reaction.<br>Safety data sheet available on request. |
| Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles | : Not applicable.   |
| Special packaging requirements   |   |
| Containers to be fitted with child-resistant fastenings  | : Not applicable.   |
| Tactile warning of danger  | : Not applicable.   |
| 2.3 Other hazards  |   |
| Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII                                  | : This mixture does not contain any substances that are assessed to be a PBT or a vPvB.   |
| Other hazards which do not result in classification  | : Prolonged or repeated contact may dry skin and cause irritation.  |

SECTION 3: Composition/information on ingredients

3.2 Mixtures : Mixture

| Product/ingredient name   | Identifiers   | %           | Classification  | Type |
|---|---|-------------|---|------|
| Hydrocarbons, C9-C11, n-alkanes, isoalkanes, cyclics, <2% aromatics                           | REACH #:<br>01-2119463258-33<br>EC: 919-857-5<br>CAS: 64742-48-9                        | ≥1.0 - ≤5.0 | Flam. Liq. 3, H226<br>STOT SE 3, H336<br>Asp. Tox. 1, H304<br>EUH066  | [1]  |

|--|--|--|---|--|

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Type

[1] Substance classified with a health or environmental hazard

This mixture contains ≥ 1% of titanium dioxide. The Annex VI classification of titanium dioxide does not apply to this mixture according to Note 10.

Occupational exposure limits, if available, are listed in Section 8.

**SUB codes represent substances without registered CAS Numbers.**

**SECTION 4: First aid measures**

**4.1 Description of first aid measures**

- Eye contact** : Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.
- Inhalation** : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.
- Skin contact** : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognised skin cleanser. Do NOT use solvents or thinners.
- Ingestion** : If swallowed, seek medical advice immediately and show the container or label. Keep person warm and at rest. Do NOT induce vomiting.
- Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

**4.2 Most important symptoms and effects, both acute and delayed**

Potential acute health effects

- Eye contact** : No known significant effects or critical hazards.
- Inhalation** : No known significant effects or critical hazards.
- Skin contact** : Defatting to the skin. May cause skin dryness and irritation.
- Ingestion** : No known significant effects or critical hazards.

Over-exposure signs/symptoms

- Eye contact** : No specific data.
- Inhalation** : No specific data.
- Skin contact** : Adverse symptoms may include the following:  
irritation  
dryness  
cracking
- Ingestion** : No specific data.

**4.3 Indication of any immediate medical attention and special treatment needed**

- Notes to physician** : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- Specific treatments** : No specific treatment.

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

**Suitable extinguishing media** : Use an extinguishing agent suitable for the surrounding fire.

**Unsuitable extinguishing media** : None known.

### 5.2 Special hazards arising from the substance or mixture

**Hazards from the substance or mixture** : In a fire or if heated, a pressure increase will occur and the container may burst.

**Hazardous combustion products** : Decomposition products may include the following materials:  
metal oxide/oxides

### 5.3 Advice for firefighters

**Special protective actions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

**For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Avoid breathing vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

**For emergency responders** : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

### 6.2 Environmental precautions

: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### 6.3 Methods and material for containment and cleaning up

**Small spill** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

**Large spill** : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

### 6.4 Reference to other sections

: See Section 1 for emergency contact information.  
See Section 8 for information on appropriate personal protective equipment.  
See Section 13 for additional waste treatment information.

|                                   |   |
|-----------------------------------|---|
| <b>Code</b> : PWF348094-ME        | <b>Date of issue/Date of revision</b> : 6 February 2024 |
| <b>TE 112QO SATIN BASE L 2200</b> |   |

**SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

**7.1 Precautions for safe handling**

- Protective measures** : Put on appropriate personal protective equipment (see Section 8).
- Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

**7.2 Conditions for safe storage, including any incompatibilities**

Store between the following temperatures: 5 to 35°C (41 to 95°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

**7.3 Specific end use(s)**

See Section 1.2 for Identified uses.

**SECTION 8: Exposure controls/personal protection**

**8.1 Control parameters**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

**Occupational exposure limits**

No exposure limit value known.

- Recommended monitoring procedures** : Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

**DNELs/DMELs**

| Product/ingredient name   | Type | Exposure              | Value              | Population                     | Effects  |
|---|------|-----------------------|--------------------|--------------------------------|----------|
| Hydrocarbons, C9-C11, n-alkanes, isoalkanes, cyclics, <2% aromatics | DNEL | Long term Dermal      | 208 mg/kg bw/day   | Workers                        | Systemic |
|   | DNEL | Long term Inhalation  | 871 mg/m³          | Workers                        | Systemic |
|   | DNEL | Long term Dermal      | 125 mg/kg bw/day   | General population [Consumers] | Systemic |
|   | DNEL | Long term Inhalation  | 185 mg/m³          | General population [Consumers] | Systemic |
| adipohydrazide  | DNEL | Long term Oral        | 125 mg/kg bw/day   | General population [Consumers] | Systemic |
|   | DNEL | Long term Inhalation  | 17.5 mg/m³         | Workers                        | Systemic |
|   | DNEL | Long term Inhalation  | 0.023 mg/m³        | Workers                        | Systemic |
|   | DNEL | Short term Inhalation | 0.07 mg/m³         | Workers                        | Systemic |
| 3-iodo-2-propynyl butylcarbamate                                    | DNEL | Short term Inhalation | 1.16 mg/m³         | Workers                        | Local    |
|   | DNEL | Long term Inhalation  | 1.16 mg/m³         | Workers                        | Local    |

**SECTION 8: Exposure controls/personal protection**

|   |      |                       |                    |                    |          |
|---|------|-----------------------|--------------------|--------------------|----------|
| reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1) | DNEL | Long term Dermal      | 0.966 mg/kg bw/day | Workers            | Systemic |
|   | DNEL | Long term Inhalation  | 1.2 mg/m³          | General population | Systemic |
|   | DNEL | Long term Inhalation  | 6.81 mg/m³         | Workers            | Systemic |
|   | DNEL | Long term Inhalation  | 0.02 mg/m³         | General population | Local    |
|   |      |                       |                    |                    |          |
|   | DNEL | Long term Inhalation  | 0.02 mg/m³         | Workers            | Local    |
|   | DNEL | Short term Inhalation | 0.04 mg/m³         | General population | Local    |
|   | DNEL | Short term Inhalation | 0.04 mg/m³         | Workers            | Local    |
|   | DNEL | Long term Oral        | 0.09 mg/kg bw/day  | General population | Systemic |
|   | DNEL | Short term Oral       | 0.11 mg/kg bw/day  | General population | Systemic |

**PNECs**

No PNECs available

**8.2 Exposure controls**

- Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- Individual protection measures**
- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
- Eye/face protection** : Safety glasses with side shields.
- Skin protection**
- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- Gloves** : For prolonged or repeated handling, use the following type of gloves:  
  
Recommended: nitrile rubber
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Use with adequate ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Wear a respirator conforming to EN140. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Mask type: full-face mask half-face mask Filter type: organic vapour filter (Type A) particulate filter P3 Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

|                            |                |                                |                   |
|----------------------------|----------------|--------------------------------|-------------------|

| TE 112QO SATIN BASE L 2200 |                |                                |                   |

SECTION 9: Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

9.1 Information on basic physical and chemical properties

Appearance

Physical state

: Liquid.

Colour

: Not available.

Odour

: Characteristic.

Odour threshold

: Not available.

Melting point/freezing point

:  May start to solidify at the following temperature: 0°C (32°F) This is based on data for the following ingredient: water. Weighted average: -2.02°C (28.4°F)

Initial boiling point and boiling range

: >37.78°C (>100°F)

Flammability (solid, gas)

: liquid

Upper/lower flammability or explosive limits

: Greatest known range: Lower: 1.4% Upper: 7.6% (Naphtha (petroleum), hydrotreated heavy)

Flash point

: Closed cup: Not applicable.

Auto-ignition temperature

:

| Ingredient name   | °C  | °F  | Method |
|---|-----|-----|--------|
| Hydrocarbons, C9-C11, n-alkanes, isoalkanes, cyclics, <2% aromatics | 270 | 518 |        |

pH

:  5

Viscosity

: Kinematic (40°C): >21 mm²/s

Solubility(ies)

:

| Media      | Result            |
|------------|-------------------|
| cold water | Partially soluble |

Miscible with water

: Yes.

Partition coefficient: n-octanol/ water

: Not applicable.

Vapour pressure

:

| Ingredient name   | Vapour Pressure at 20°C |     |        | Vapour pressure at 50°C |     |        |
|---|-------------------------|-----|--------|-------------------------|-----|--------|
|   | mm Hg                   | kPa | Method | mm Hg                   | kPa | Method |
|  water | 17.5                    | 2.3 |        |                         |     |        |

Relative density

: 1.16

Explosive properties

: The product itself is not explosive, but the formation of an explosible mixture of vapour or dust with air is possible.

Oxidising properties

: Product does not present an oxidizing hazard.

Particle characteristics

Median particle size

: Not applicable.

SECTION 10: Stability and reactivity

|   |  |
|---|--|
| 10.1 Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients. |
| 10.2 Chemical stability                 | : The product is stable.   |
| 10.3 Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.            |
| 10.4 Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.            |

|                                   |   |
|-----------------------------------|---|
| <b>Code</b> : PWF348094-ME        | <b>Date of issue/Date of revision</b> : 6 February 2024 |
| <b>TE 112QO SATIN BASE L 2200</b> |   |

SECTION 10: Stability and reactivity

Refer to protective measures listed in sections 7 and 8.

- 10.5 Incompatible materials : Keep away from the following materials to prevent strong exothermic reactions: oxidising agents, strong alkalis, strong acids.
- 10.6 Hazardous decomposition products : Depending on conditions, decomposition products may include the following materials: metal oxide/oxides

SECTION 11: Toxicological information

11.1 Information on toxicological effects

| Product/ingredient name   | Result                          | Species | Dose        | Exposure |
|---|---------------------------------|---------|-------------|----------|
| Hydrocarbons, C9-C11, n-alkanes, isoalkanes, cyclics, <2% aromatics                           | LD50 Dermal                     | Rat     | >5000 mg/kg | -        |
| adipohydrazide  | LD50 Oral                       | Rat     | >5000 mg/kg | -        |
|   | LC50 Inhalation Dusts and mists | Rat     | 5.3 mg/l    | 4 hours  |
| 3-iodo-2-propynyl butylcarbamate  | LD50 Oral                       | Rat     | >2000 mg/kg | -        |
|   | LC50 Inhalation Dusts and mists | Rat     | 0.67 mg/l   | 4 hours  |
| 1,2-benzisothiazol-3(2H)-one  | LD50 Dermal                     | Rabbit  | >2 g/kg     | -        |
|   | LD50 Oral                       | Rat     | 1470 mg/kg  | -        |
|   | LC50 Inhalation Dusts and mists | Rat     | 0.4 mg/l    | 4 hours  |
| reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1) | LD50 Oral                       | Rat     | 1020 mg/kg  | -        |
|   | LD50 Oral                       | Rat     | 53 mg/kg    | -        |

Conclusion/Summary : There are no data available on the mixture itself.

| Product/ingredient name   | Oral (mg/kg) | Dermal (mg/kg) | Inhalation (gases) (ppm) | Inhalation (vapours) (mg/l) | Inhalation (dusts and mists) (mg/l) |

|                                   |   |
|-----------------------------------|---|
| <b>Code</b> : PWF348094-ME        | <b>Date of issue/Date of revision</b> : 6 February 2024 |
| <b>TE 112QO SATIN BASE L 2200</b> |   |

SECTION 12: Ecological information

| Product/ingredient name   | LogP <sub>ow</sub> | BCF        | Potential |
|---|--------------------|------------|-----------|
| Hydrocarbons, C9-C11, n-alkanes, isoalkanes, cyclics, <2% aromatics | -                  | 10 to 2500 | High      |
| adipohydrazide  | -2.7               | -          | Low       |
| 1,2-benzisothiazol-3(2H)-one  | 0.7                | -          | Low       |

12.4 Mobility in soil

- Soil/water partition coefficient (K<sub>oc</sub>)** : Not available.
- Mobility** : Not available.

12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

12.6 Other adverse effects : No known significant effects or critical hazards.

SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods

Product

- Methods of disposal** : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.
- Hazardous waste** : Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC.

Waste catalogue

| Waste code | Waste designation  |
|------------|--|
| 08 01 12   | waste paint and varnish other than those mentioned in 08 01 11 |

Packaging

- Methods of disposal** : The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.
- Special precautions** : This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

SECTION 14: Transport information

|                                 | ADR/RID        | ADN   | IMDG           | IATA           |
|---------------------------------|----------------|---|----------------|----------------|

| <b>14.5 Environmental hazards</b>  | No.             | Yes.            | No.             | No.             |
| <b>Marine pollutant substances</b> | Not applicable. | Not applicable. | Not applicable. | Not applicable. |

Additional information

- ADR/RID** : None identified.
- ADN** : The product is only regulated as a dangerous good when transported in tank vessels.
- IMDG** : None identified.
- IATA** : None identified.

**14.6 Special precautions for user** : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**14.7 Transport in bulk according to IMO instruments** : Not available.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture  
UK (GB)/REACH

Annex XIV - List of substances subject to authorisation

Annex XIV

None of the components are listed.

Substances of very high concern

None of the components are listed.

Ozone depleting substances

Not listed.

**Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles** : Not applicable.

Seveso Directive

This product is not controlled under the Seveso Directive.

SECTION 16: Other information

Indicates information that has changed from previously issued version.

- Abbreviations and acronyms** :
- ATE = Acute Toxicity Estimate
  - GB CLP = UK CLP (EC No 1272/2008) on the Classification, Labelling and Packaging of Substances and Mixtures as amended by (EU Exit) Regulations 2019 No. 720 and amendments
  - DMEL = Derived Minimal Effect Level
  - DNEL = Derived No Effect Level
  - EUH statement = GB CLP-specific Hazard statement
  - N/A = Not available
  - PBT = Persistent, Bioaccumulative and Toxic
  - PNEC = Predicted No Effect Concentration
  - RRN = REACH Registration Number

| <b>SECTION 16: Other information</b> |   |

SGG = Segregation Group  
vPvB = Very Persistent and Very Bioaccumulative

**Procedure used to derive the classification**

Not classified.

**Full text of abbreviated H statements**

|        |   |
|--------|---|
| H226   | Flammable liquid and vapour.                                    |
| H301   | Toxic if swallowed.   |
| H302   | Harmful if swallowed.   |
| H304   | May be fatal if swallowed and enters airways.                   |
| H310   | Fatal in contact with skin.                                     |
| H314   | Causes severe skin burns and eye damage.                        |
| H315   | Causes skin irritation.   |
| H317   | May cause an allergic skin reaction.                            |
| H318   | Causes serious eye damage.                                      |
| H330   | Fatal if inhaled.   |
| H331   | Toxic if inhaled.   |
| H336   | May cause drowsiness or dizziness.                              |
| H372   | Causes damage to organs through prolonged or repeated exposure. |
| H400   | Very toxic to aquatic life.                                     |
| H410   | Very toxic to aquatic life with long lasting effects.           |
| H411   | Toxic to aquatic life with long lasting effects.                |
| EUH066 | Repeated exposure may cause skin dryness or cracking.           |
| EUH071 | Corrosive to the respiratory tract.                             |
