DS1105**NITROCELLULOSE THINNER****Technical characteristics:**

Specific gravity (kg/l):	0.860 ± 0.030
Flash point:	-10°C
Drying speed (max 100 – min 0):	80
Resistivity (Mohm/cm at 20°C):	150
Shelf-life:	If the product is properly stored, shelf-life is unlimited.

General characteristics

DS1105 is formulated with selected raw materials and ensures regular film evaporation. It is sufficiently fast-drying, reduces viscosity of nitrocellulose coatings and promotes film-forming also in hot and humid weather. When humidity exceeds 70% or in extremely hot weather, the addition of 2-5% of XS 7 is recommended.

D1105 is not recommended for thinning polyurethane products.
