PRODUCT TYPES

Flooring Range

For both factory and on site use, Arch has the answer to your customers needs. We can supply all types of basecoats and lacquers, in water & solvent based ranges.

Water Stains Range

(AC600, AC1400, AP1221, XM8000)

Use these stains for their aesthetic qualities, and to help to reduce solvent emissions. Also achieve better results on difficult timbers such as Beech and Cherry.

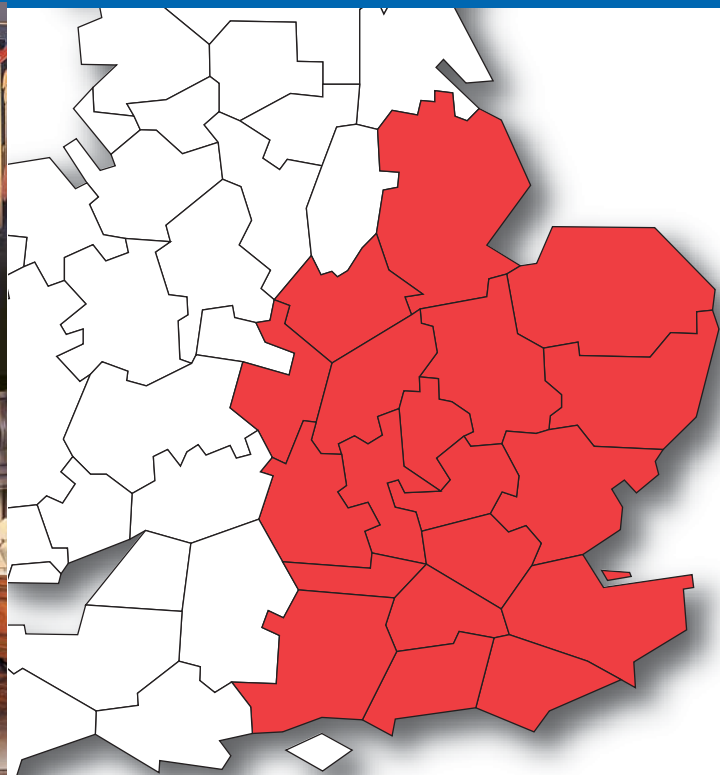

Solvent Based Stains Range

(XM8000, XM7100, XC1900.)

Traditional stains and colour sprays are the strengths of these products, with fast drying and light fastness among their many benefits.

PRODUCT TYPES

Water Based Pigmented Range

A comprehensive product range exhibiting a quality of finish to match top grade solvent based systems.

Water Based Clear Range

The finest range of basecoats, topcoats and coat on coat lacquers giving superior quality, and with the benefit of FIRA 6250 severe rating.

Cellulose Range

Clear and pigmented products, for traditional finishing methods.

Pre-Cat Range

Emphasis on quality puts Sayerlack Pre-Cat finishes at the top for ease of use, coverage with colours and allows manufacturing to a very high standard.

Acid-Catalyst Range

Products led by exceptionally good pigmented system. A newly developed range for use with the Corob system; a technical breakthrough in wood finishing and with 3 clear lacquer ranges to suit all customer requirements.

Polyurethane Range

Arch introduced these materials into the UK to bring higher standards of speed and quality with results better than anyone believed possible.

We are still continuously improving our range, to keep us at the forefront of the wood finishing Industry.

Fire Retardants

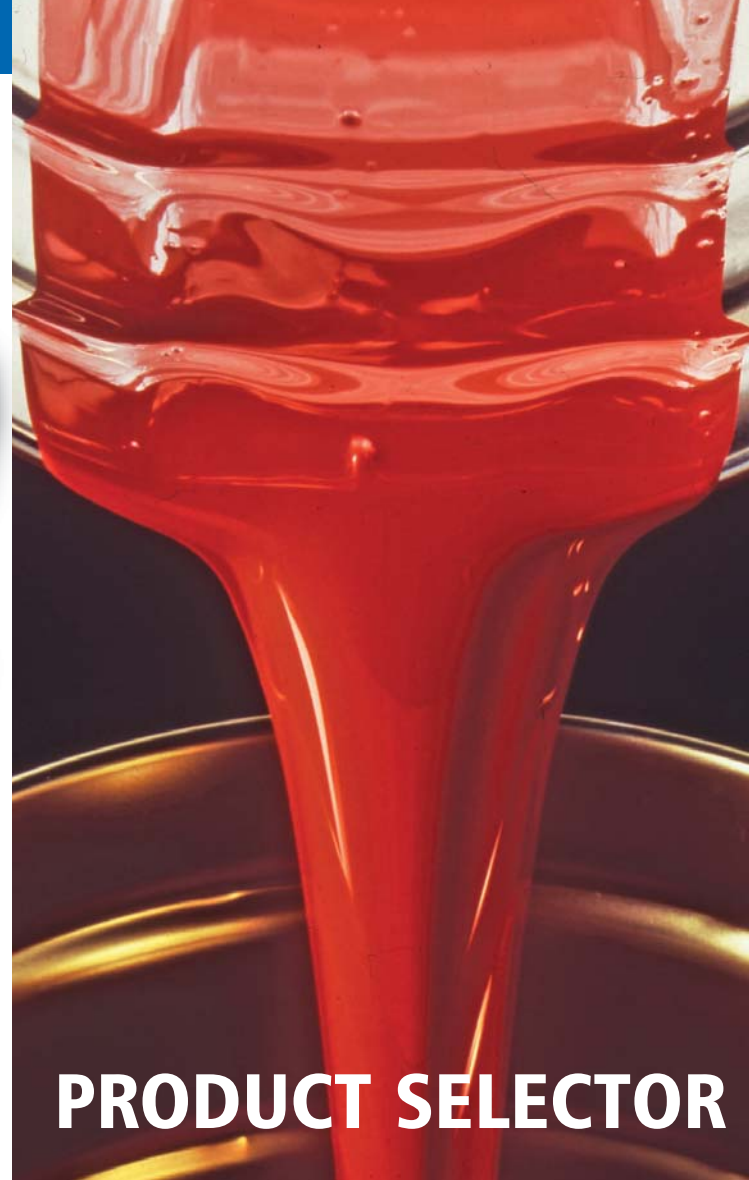

Leaders in this market with a very high aesthetic standard of finish, coupled with the unique feature of being able to upgrade the fire rating of panels.

Polyester Range

A range of products, including traditional 'wax' polyesters, polyester basecoats and direct gloss topcoats, in both clear and pigmented systems. Typically used when a high gloss finish is required.

Acrylic Range

The ultimate in two pack Water White clear systems, easy to use and giving non yellowing properties for use over light timbers (Ash, Maple, Sycamore, Beech) and painted finishes.
